Education

Master of Computer Science

Stanford University, Pakistan | 2019 - 2021

Studied advanced computer science topics, including software engineering, AI, and data structures, while completing projects focused on real-world applications.

Bachelor of Computer Science

Massachusetts Institute of Technology (MIT) | 2015 - 2019

Built a strong foundation in programming, algorithms, and system design, completing multiple academic and practical projects in web development and software solutions.

Professional Skills

- **Frontend Development:** 95%
 - **Backend Development:** 85%
 - **UI/UX Design:** 90%
 - **Project Management:** 80%
-

Professional Experience

Senior Software Engineer – Google, Mountain View, CA | 2021 - Present

- Lead in the development, implementation, and optimization of web applications using modern technologies.
- Delegate tasks to the 7 members of the development team and provide counsel on all aspects of the project.
- Supervise the assessment of all web applications, mobile apps, and software platforms for quality and efficiency.
- Oversee the efficient use of production project budgets ranging from \$2,000 - \$25,000.

Software Engineer – Microsoft, Redmond, WA | 2019 - 2021

- Developed numerous marketing programs (logos, brochures, infographics, presentations, and advertisements).
- Managed up to 5 projects or tasks at a given time while under pressure.
- Recommended and consulted with clients on the most appropriate software platforms.
- Created 4+ design presentations and proposals a month for clients and account managers.

Junior Software Developer – Apple Inc., Cupertino, CA | 2017 - 2019

- Implemented responsive websites and web applications using modern JavaScript frameworks.
- Collaborated with senior developers to maintain and optimize existing applications.
- Participated in code reviews and contributed to team documentation efforts.
- Assisted in the development of RESTful APIs and microservices.
